

Characterization - The way in which an author presents & defines characters

direct characterization - what the narrator reveals about the character directly

indirect characterization - what the character says & does + what others say about or how others react to the character - how a character responds to events in the plot

Flat	Round	Complexity
2-dimensional	Complex	
Static - Personality Unchanged throughout story	dynamic - Changes through out the story	Change

Look for details that reveal a character's:

- physical description
- personality
- motivations
- relationships
- capabilities
- thoughts
- words
- actions
- background
